Education

High School: Hengyang No.1 High School 2020-2023

University of Macau 2023-2027

Major : Computer Science

- Code: python, C language, C++, JAVA
- Course: Web page production, operating system, algorithm design and analysis, Computer Graphics, Digital Image Processing, etc

Project

University of Macau

NLP Lab Research Project

- Participate in cutting-edge research in the field of natural language processing, focusing on the medical field;
- Build an experimental environment using Python, PyTorch, and Hugging Face toolchain, responsible for developing data preprocessing and model training modules;
- Participate in weekly group meetings and academic seminars, assist in organizing experimental ideas, iterating optimization plans, and synchronously organizing experimental records and stage reports.

Internship

Sinotrans Air Transport Co., Ltd. Wuhan Branch

- Master the business logic and operation of customs declaration, human resources (recruitment/training/performance), and sales (inquiry/quotation) systems
- Using computer expertise to optimize system operation processes and improve business processing efficiency
- Ensure the stable operation of the system throughout the entire process and complete internship tasks with high quality

Campus Experience

2024.08~2025.06 RC Office

- Manage the order of the academy
- Organize documents, summarize information, etc

Highlights

- Language: English; Chinese
- Technical Skills: Python, C, C++, Java, Web Development, Algorithm Design, Digital Image Processing, WPS
- Hobbies: Photography, Edit
